PROJECTS

Netflix Clone [Preview Live](#) | [View Code](#)

A lightweight version of Netflix built with NextJS, TypeScript, Firebase and TailwindCSS that allows users to sign up and login, view movie details and trailers, select and purchase plans, and cancel or update membership. Integrated with Stripe for handling user payments, TMDB API for movie data, and YouTube for trailer videos.

Presello Clone [Preview Live](#) | [View Code](#)

A real-estate web app built with React, Firebase and TailwindCSS that allows users to sign up and login to create and save their property listings permanently.

REST Countries API [Preview Live](#) | [View Code](#)

An informational website integrated with the REST Countries V3 API and built with vanilla JavaScript to display common data of each countries. This is a solution to the Rest Countries API challenge on Frontend Mentor.

Designo [Preview Live](#) | [View Code](#)

A multi-page agency website built from scratch. This is a solution to the Designo multi-page website challenge on Frontend Mentor.
